Impact on Student & Staff Experience

Positive feedback so far has been through conversations with students and staff who are regularly participating in activities

We have been recording participants engagement and there are plans to have a better system in place to ensure accuracy of data

Does student participation in Active Campus activities help with student retention?

Plans for Academic Year 24/25

To continue to progress Active Campus activities

To gather our own statistics to accurately record data

To gather student and staff testimonies of their experiences while partaking in events and activities to encourage others

To form an Active Campus landing page to allow staff and students to engage and keep up to date with everything active campus related

To build a support network of staff members and students who will assist on projects and activities (Student Exec Position)

To help establish high quality work placement opportunities for sports coaching students

Thanks for listening
